NEW ELECTRIC compact excavator

The TB20e is the latest innovation in the Takeuchi excavator line-up. A fully electric machine, and the first Takeuchi excavator to feature electro-hydraulic controls.

Built with the same all steel construction, heavy duty boom and retractable under carriage, matching the performance of its diesel TB216 equivalent.

The TB20e is ideal for applications in noise sensitive areas such as schools or hospitals, operating at 80dB and 15% quieter than a diesel excavator. This environmentally friendly option offers a more sustainable choice.
